

VULCAN ANVILS

Quality Plus Workmanship

FACE and HORN SOLID STEEL
BODY of BEST QUALITY GREY CAST IRON

The face of the Vulcan Anvil is of solid tool steel, warranted to be thoroughly welded to cast iron body of the anvil . . . Ground, tempered and polished to a high class finish. The horn is covered with—and its point is made entirely of—tough untempered steel. The Vulcan is a high grade quality anvil and has been used with success many years.
